

What is happening in this country is a disgrace. Why is Colin Powell's son the head of the FCC? Why is Haliburton Oil, Dick Cheney's oil company getting a multibillion dollar contract to clean up a war he helped start? Why are we now an occupying nation after defying international law to bring "demoncracy" to another country while we are systematically destroying democracy in our own country with names like the "Patriot Act" and by using tactics that smack of McCarthyism. The FCC deregulation is just one more disgrace in this country since the Bush Administration "let" 9/11 happen. It took forty minut to realize four planes were off-course? The government went in and took over for the air traffic controllers on 9/11? Just like Pearl Harbor and JFK's assassination, we will learn someday what our own government did. Let's hope it's not too late again and nobody cares anymore.
